Know Your Fleet

Takeuchi Fleet Management

Flexible asset management your way, on your schedule.

Takeuchi Fleet Management (TFM) is designed to help you better manage your fleet and lower your overall operating costs. With monitoring you can check the health of your equipment and prevent costly repair calls by keeping track of alerts, hours and much more.

MINIMIZE DOWNTIME

Proactive monitoring increases machine health, reduces risk and keeps machines running.

REMOTE DIAGNOSTICS

Reduce service trips by remotely capturing run hours and equipment data.

UTILIZATION TRACKING

Make decisions based on actual equipment use.

PROACTIVE MAINTENANCE

Schedule maintenance based on run hours; save time, parts and money by avoiding unnecessary maintenance.

CONTROL COST

Know what the issue is and take the right tools and parts on the first trip.
