

FOR IMMEDIATE RELEASE

TAKEUCHI LAUNCHES TL6 COMPACT TRACK LOADER

Atlanta, GA: [Takeuchi-US](#), an innovative global leader in compact equipment, has introduced the TL6 compact track loader (CTL), an agile, compact machine that is easy to transport, and features outstanding stability and performance. The TL6 is ideal for customers in the agricultural, general contracting, landscaping and rental industries.

Powered by a Kubota 2.4 liter, 65.2 horsepower engine, the TL6 features a radial lift loader design with a maximum lift height of 9 feet 6.4 inches, and a rated operating capacity of 1,841 pounds. Additionally, the TL6 has a width of 5 feet, a height of 6 feet 5.8 inches and weighs 7,480 lbs with a canopy and 7,780 lbs when equipped with a cab. The compact dimensions of the TL6 enable it to access and work efficiently in areas with limited space.

The TL6 features a newly designed cabin with an overhead 5.7" color multi-information display and backlit rocker switches that control a variety of machine functions. A cab with swing-out door, heat, and air conditioner are available for greater operator comfort.

Takeuchi Fleet Management (TFM) system comes standard on the TL6. The TFM telematics system is available during the machines warranty period of two years at no additional cost, and it is able to provide a variety of data points including machine health and condition, run time and machine location. The user-friendly TFM system can help reduce downtime, control costs, perform remote diagnostics and schedule maintenance.

"We saw an opportunity to offer a track loader that would be easy to transport, feature compact dimensions, deliver excellent power, and be capable of working in a wide range of applications," said David Caldwell, national product manager at Takeuchi-US. "The TL6 is a welcome addition to the growing and evolving Takeuchi lineup. It delivers outstanding features, unmatched performance, excellent serviceability and is an overall great value."

The TL6 CTL is now available. For more information on the TL6 or on Takeuchi excavators, skid steers, track loaders, wheel loaders or Takeuchi Fleet Management, visit www.takeuchi-us.com. Follow Takeuchi on [Facebook](#) or on Twitter @TakeuchiMFG.

About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact track loaders, compact excavators, compact wheel loaders, and skid steer loaders. Founded in 1963, Takeuchi was the first company to introduce the compact excavator to North America, setting the stage for one of the highest growth product segments ever introduced in the compact equipment market. The compact excavator has become a main line product for both rental and construction/utility companies. Takeuchi continued to lead the compact construction industry with the introduction of the first compact track loader to North America.
